

Shashwat Saxena

Full-Stack Software Engineer — Product Engineer

shashwats500@gmail.com | +91-8287222415 | LinkedIn | GitHub

Full Stack and Product Engineer with hands-on experience across product development, AI, full-stack engineering, cloud deployment, SEO, and business growth.

Experience

BWAYS TECHNO SOLUTION

India

Product Manager

Mar 2026 – Present

- Worked on **DropProof** across dashboard, .NET backend, reports, landing pages, billing/payment workflows, and React Native driver apps for Android/iOS, including APK/AAB builds and release assets; reached **263 active users** in the last 28 days.
- Built and deployed **SpeedPilot**, a React-based speed testing platform using LibreSpeed and DigitalOcean, handling backend services, CORS, server configuration, and production deployment.
- Drove **SEO, lead generation, and partnerships** through search-intent analysis, landing-page optimization, and outreach.

ENALYTECHS SOLUTIONS LLP

India

Software Engineering Intern

Sep 2025 – Mar 2026

- Built **responsive Enalytechs landing pages** using React, reusable components, and product-focused UI.
- Developed a **social-media intelligence and sentiment-analysis platform** with React, Node.js, MongoDB, and Redis, covering dashboard development, authentication, data processing, and end-to-end service integration.
- Built and deployed **automated Facebook scraping workflows** using Selenium, Puppeteer, and Playwright; Dockerized services and deployed them on AWS, integrating Python/Flask ML processing through webhooks and Redis-based workflows.

TEACHNOOK

Remote

Software Development Intern

Jun 2024 – Jul 2024

- Developed and delivered a responsive **Rhyno EV frontend website** using React and Material UI, implementing reusable components, responsive layouts, and interactive UI elements.
- Deployed the production website on **Netlify** and collaborated remotely throughout the development lifecycle.

Projects

Clientalio – SaaS / AI Product

Live ↗

- Contributed to the redesign and development of a SaaS platform for customer testimonials, social proof, and product workflows, reaching **147 active users** in the last 28 days.
- Worked on React frontend, Razorpay billing, product workflows, and OpenAI-powered theme and design generation; supported **141 new users** during the same period.
- **Tech:** React, .NET, OpenAI API, Razorpay, MongoDB

Social Media Intelligence & Sentiment Analysis

Scraper ↗ | Dashboard ↗

- Built a **social-media intelligence platform** for data extraction, sentiment analysis, and dashboard analytics using Selenium, Puppeteer, Playwright, React, Node.js, Python, Redis, Docker, and AWS.

Education

Golden Gate University

San Francisco, USA

Master of Business Administration (MBA) – General Management GPA: 3/4

Jul 2026 – Oct 2027

Bennett University

Greater Noida, India

Bachelor of Technology (B.Tech) – Computer Science; CGPA: 8.17/10

Sep 2022 – May 2026

Achievements

- **Smart India Hackathon:** Secured **4th Rank** with Team Healioquest, 2024.
- **Indeathon 2.0:** Won **1st Prize** at Bennett University, 2024.
- **MAIT 5.0:** Qualified **Round 1 – Innovative Track**, 2024.
- **GeeksforGeeks Hackfest:** Participated in Hackfest Delhi NCR, 2024.
